KARUNYA SARAVANAN

Data Scientist

karunyasaravanan14@gmail.com | linkedin.com/karunya-s | 9361823820 | Chennai, India

SUMMARY

Data Analyst with 2+ years of experience in data processing, validation, and reporting, transitioning into Data Science with a solid foundation in Machine Learning and Natural Language Processing. Committed to continuous learning and applying advanced data science techniques to drive business growth, eager to contribute to a data science team with innovative solutions.

KEY SKILLS

Python | Machine Learning | NLP | Data Cleaning | Data Transformation | Data Modeling | SQL | MySQL | Power BI | Selenium | API Testing | Statistics | Salesforce

PROJECTS

Global Seismic Trends — Data-Driven Earthquake Insights
Key Skills: Python, SQL, Power BI, Streamlit

- Built an end-to-end earthquake analytics solution analyzing 77,000+ global seismic records pulled via the USGS API
- Engineered a data pipeline using Python and MySQL to clean, transform, and structure raw seismic data for analysis
- Developed interactive dashboards using Power BI and Streamlit to visualize magnitude, frequency, and regional trends
- Enabled trend-based insights to support data-driven decision-making on seismic risk patterns

News Intelligence Engine
Key Skills: Python, NLP, NLTK, Scikit-learn

- Developed an NLP-powered system for automated news classification, summarization, and sentiment analysis
- Built text preprocessing and feature extraction pipelines using NLTK and Scikit-learn for multi-label classification
- Deployed an interactive Streamlit interface to deliver real-time news insights and sentiment scoring
- Enabled faster content triage by automatically categorizing and summarizing high-volume news data

App User Behavior Segmentation
Key Skills: Python, K-Means Clustering, Data Visualization

- Built a customer segmentation model using K-Means clustering to analyze app user behavior patterns
- Engineered behavioral features from raw usage data to identify distinct user clusters
- Visualized cluster characteristics using Matplotlib to support personalized business recommendations
- Enabled targeted, data-driven strategies for user engagement based on segment-level insights

WORK EXPERIENCE

ASSOCIATE , Cognizant Technology Solutions — **Dec 2023 - Present**

- Performed data extraction, transformation, and validation using SQL and Python, building Power BI dashboards for business insights; working knowledge of GxP, Non-GxP, and GAMP5 compliance frameworks
- Gathered business requirements to build automation solutions, alongside manual/automation testing (Java-Selenium, Rest Assured) to ensure system quality

EDUCATION

IIT-M Advanced Programming Professional & Master Data Science — **Nov 2025 - Jun 2026**
IIT-M GUVI

Bachelor of Engineering — **Aug 2019 - May 2023**
K Ramakrishnan College Of Technology

- Major in Computer Science Engineering.
- Final CGPA: 8.4

CERTIFICATION

- IBM Data Science Professional Certificate
- Google Data Analytics & Advanced Data Analytics Certificates
